Mad SCIENCE®

SCIENCE ENRICHMENT PROGRAM

DID YOU KNOW THAT YOU CAN PARTICIPATE IN MAD SCIENCE FOR UP TO 5 YEARS WITHOUT REPEATING TOPICS?

"EXTRAORDINARY LABRATORY" WEDNESDAYS FROM 1:30-2:10

HELD AT YOUR SCHOOL FOR EIGHT WEEKS

February 8th—April 5th

My 8 year old son has wanted to try Mad Science since last year and regrettably I didn't sign him up. This year when he said he wanted to do Mad Science he wasn't giving up without a fight so I decided to give it a go. Boy am I happy I did! He loves it! Every session they learn something fun, engaging and age appropriate that he can take back with him to science class and brag about to us at home. I love the fact that he's learning something new without feeling like he is - he thinks it's just fun :) The kids come home with experiments they performed and items related to the topic of the day.

- Stephanie - Georgetown

Registration Deadline: Please return this registration form to the school by Friday January 27, 2017

Conestogo Public School—Conestogo Cost: $95.58 + HST = $108

WWW.HAMILTON.MADSCIENCE.ORG

Registration Information - Deadline Friday January 27, 2017

Policies: By registering your child, you acknowledge that you have read and agree to the policies found on our website.

Reminder: Announcements will be made at the beginning of each class to remind all registered children to attend the Mad Science program. We suggest to write a reminder in your child's daily planner to let their classroom teacher know your child is registered and should be attending.

Program Cost: $95.58 + HST = $108

Payment Information: Date cheque for Friday January 27th, 2017 and make payable to Mad Science.

Questions: Please direct all questions to the Mad Science office rather than your school office.

Behaviour Expectations: We are committed to offering a quality program for every child registered in Mad Science. Your child should be able to interact safely and appropriately with the Presenter, the other children in the class, and the equipment in both group and individual activities. While we make every effort to assist each child in having a great experience, children who display behaviour not within these guidelines may be withdrawn.

Is My Child Registered?: Your child is registered unless you are notified otherwise. Confirmations will not be sent. In some programs, spaces may be limited.

Program Details: This fun, safe and interactive course is suitable for Grade 1-6 students. Your children will be working with our professional, trained Presenters. Each class is filled with dynamic demonstrations, tons of hands-on activities and weekly take-homes! If the program is happening during lunch or nutrition break, your child will eat during the first part of class. Mad Science eight week programs are eligible for the CHILD ART TAX CREDIT.

The 8 Awesome Topics For This Session Are:

SONIC SOUNDS Can you hear me now? Ride a sound wave through solids, liquids and gases to new-found knowledge on the properties of sound!

TANTALIZING TASTE Mmm...I can taste it now...with my nose? Come on out and we'll explain with this exploration on the way we taste our food!

LIGHTS, COLOUR, ACTION! No, you're not in Hollywood! You're in Sir Isaac Newton's lab! Uncover the hidden components of colour and light!

OPTICAL ILLUSIONS Seeing isn't always believing but believe us when we say you'll love this exploration of optics, reflection and sight.

ALL ABOUT ANIMALS Teeth, claws, furs and paws are all found in this hands-on investigation about animals and their adaptations!

HARNESSING HEAT Get up and dance like a molecule in this hot exploration on the properties of heat! You'll soon warm up!

MAGNETIC MAGIC Investigate the powers of magnets as they repel and attract each other. This class will really pull you in!

WATTS-UP This hair-raising investigation about electricity could cause some static! Come be enlightened!
