### MINIMUM COURSE LOAD AT GCI

Students registering at GCI must choose a program with a course load according to school policy as outlined below:

Grade Level	Minimum Day School Course Load	Note
9	8	<i>In grades 9 and 10, all students will select a full course load of 8 credit courses unless there are exceptional circumstances approved by the Principal.</i>
10	8	
11	8	<i>Students are encouraged to select 8 courses. Students with less than 20 credits are expected to carry 4 credits for the entire semester.</i>
12	6 or 7	<i>It is recommended that students take the number of credits needed to fulfill OSSD requirements, 30 credits. e.g. 23 credits earned + 7 needed = 30 credits</i>

**34 CREDIT CAP / THRESHOLD:** In September of 2013, the Ministry of Education introduced a threshold of 34 secondary school credits per student. The requirement to obtain an Ontario Secondary School Diploma (OSSD) is 30 credits. Students wanting to exceed the 34 credit threshold will be directed to continuing education options such as summer school and night school. Students will not be required to pay for credits over the 34-credit threshold. All successfully completed credits will count toward the 34 credit threshold. For example, if a student successfully completes a credit course more than once (e.g., to upgrade mark), each successful completion will count toward the 34 credit total. The Ministry has identified some exemptions for the 34 credit threshold, which include students with IEPs, and credit courses in English as a Second Language (ESL) and English Literacy Development (ELD).

**PART TIME STUDENTS:** Students will be permitted to be part time (1 or 2 credits) with Principal approval **ONLY** if they have earned their Ontario Secondary School Diploma (30 credits).

**NOTE:** It is imperative that students choose their courses wisely as teaching staff, support staff and classrooms are based on these choices. Course changes may not be possible in September. Students are expected to choose a full time program based on minimum course load and commit to this program for the entire year. Any exceptions are subject to administrative approval.

**CHARGING OF COURSE FEES:** All basic materials essential for the completion of a program are made available to students, at no cost. It is the policy of the Waterloo Region District School Board to acknowledge that: students are entitled to an education that ensures they achieve their full potential through the equitable and appropriate allocation of funds provided by the Ministry of Education; enhanced educational opportunities for all students are made available through shared responsibilities with parents and guardians and other community resources. Students/families requiring financial assistance should contact a staff member. The staff member will ensure that the student's issue is dealt with in an appropriate manner.
