BULLYING PREVENTION AND INTERVENTION PLAN

Margaret Avenue Public School (hereafter referred to as the “school”) recognizes and understands that in order to create a safe, caring, inclusive and accepting school climate, and to also address inappropriate behaviour, a whole school approach is necessary for engagement of the entire school community. Our commitment to fostering a safe, caring, inclusive and accepting school climate is reflected in all aspects of our school practices.

We believe that a safe, caring, inclusive and accepting school is fundamental to ensuring the following:

- Student well-being
- Student engagement
- Student achievement

The school will utilize the following definition of bullying from the Ministry of Education in its communication with the school community:

Bullying means aggressive, unwanted and typically repeated behaviour by a pupil where,

- 1) the behaviour is intended by the pupil to have the effect of, or the pupil ought to know that the behaviour would be likely to have the effect of,
 - a) causing harm, fear or distress to another individual, including physical, psychological, social or academic harm, harm to the individual’s reputation or harm to the individual’s property, or

For the purposes of the definition of “bullying” behaviour includes the use of any physical, verbal, electronic, written or other means.

Cyber-bullying

3. Create a Safe, Caring, and Inclusive School Team (SCIS)

A positive school climate is defined by the Ministry of Education as “the sum total of all the personal relationships within a school”. When these relationships are founded in mutual acceptance and inclusion, and modeled by all, a culture of respect becomes the norm. Confirmation of a positive school climate is when all members of the school community feel safe, accepted and included. This team will invite discourse to discuss trends and offer recommendations towards solutions in building and sustaining a positive school climate for all students and to provide opportunities for all students to reach their full potential.

Objectives:

1. Review the data from annual surveys and recommend appropriate measures to address areas of concern.
2. Develop awareness and understanding, for all stakeholders, of the factors that contribute to a safe, inclusive, caring and accepting school climate.
3. Identify ways we make staff and students aware of how they can help prevent and address bullying; including the creation and/or maintenance of a ‘Bullying Prevention and Intervention Plan’ for the school

EVALUATION OF BULLYING PREVENTION STRATEGY

The School recognizes that effective anti-bullying strategies must be evidence-based.

1. The school will base its bullying interventions, strategies, practices and programs on evidence from the school's annual climate surveys and other relevant information. The school will take the following steps to assess anti-bullying initiatives and strategies:

- Evaluate the evidence to determine the main areas of concern, and identify issues in the physical environment, determine current procedures, and assess the strategies in place based on results of the school climate surveys and other relevant information.
- Identify children and youth involved in bullying (including the bully, the person being bullied and those who may be witness to or affected by the bullying).
- Review and update the School's strategies as a result of gathering new information and share with the school community.

2. The School's Bullying Prevention and Intervention Plan will follow the Plan, Act, Assess, and Refine Model on an annual basis in the service of continued improvement.

3. The school will consider the following points when developing and /or revising the Bullying Prevention Strategy:

- The School's main issues of concern raised by students, staff and parents/guardians/caregivers in the annual school climate survey and any other relevant information.
- The School's concerns in respect of the physical environment.
- The School's current processes for response, reporting, support and follow-up on issues.
- Based on the school climate survey results and other relevant information, what areas have shown success and improvement?
- Based on the school climate survey results and other relevant information, what areas require improvement?
- Based on the above, what action plan should the School implement to address the areas of concern?
- The School will reassess the results of subsequent school climate surveys to verify the efficacy of the anti-bullying initiatives, and inclusive strategies implemented. The post-evaluation phase gathers evidence to test the efficacy of the prevention, responses, interventions or supports provided in order for changes to be made, where necessary.

4. The School will also:

- Provide opportunities for regular check-ins with students at-risk or affected by bullying;
- Provide opportunities for teachers to develop effective classroom management strategies using progressive discipline;
- Provide opportunities to learn about the language of inclusion, as well as the matter of social privilege and its impact on relationships;
- Provide training for staff to identify potential areas of conflict in order to engage in early intervention strategies;
- Establish and maintain respectful and caring classrooms that also reflect the diversity of the school and community; and
- Align supervision plan to address where and when bullying happens, as identified through climate surveys.

5. The School recognizes the importance of using timely interventions and supports with a school-wide approach. To this end, the School will:

- Use teachable moments within a progressive discipline approach to address inappropriate behaviour, and consider mitigating and other factors;
- Have in place processes and strategies to identify and respond to bullying when it happens;
- Identify strategies for supporting all students involved in bullying- e.g. restorative justice
- Communicate the progressive discipline approach to the school community and the procedures in place to support the student.

6. The School supports the use of evidence-informed interventions and support strategies in a timely manner and using a whole school approach.
