dialogues régionaux 2016

## Introduction

Regional Dialogue is a perennial spring-time event dedicated to the delivery of admissions updates between Ontario universities and high school guidance counsellors. University representatives and counsellors alike collaborate at Regional Dialogues to share feedback, network and engage in topical issues of the day in support of their shared goal to promote high school students' access to Ontario universities.

The *Ontario University Regional Dialogues 2016 Resource Guide* is brought to you by the General Committee on Student Recruitment (GCSR) in partnership with the Ontario Universities' Application Centre (OUAC). This Resource Guide was designed at the request of Ontario guidance counsellors and is written for guidance counsellors rather than students. The best resource for your students is eINFO: [www.electronicinfo.ca](http://www.electronicinfo.ca).

Additional copies of the *Ontario University Regional Dialogues 2016 Resource Guide* can be found at: <http://guidance.ouac.on.ca/resource/regional-dialogues>.

The Ontario universities thank you for your participation in the 2016 Ontario University Regional Dialogues. We hope this guide helps answer your frequently asked questions.

Sincerely,  
The GCSR and the OUAC

## Introduction

Dialogue Régionaux est un événement permanent ayant lieu tous les printemps et consacré à la mise à jour, par les universités de l'Ontario, des renseignements sur les admissions aux conseillers des écoles secondaires. Des représentants des universités et des conseillers collaborent aux Dialogues régionaux dans le but de partager leurs rétroactions, de réseauter et de se pencher sur des questions d'actualité, avec un objectif mutuel de promotion de l'accès aux études universitaires ontariennes par les élèves du niveau secondaire.

Le *Guide de ressources : Universités de l'Ontario dialogues régionaux 2016* vous est présenté par le *General Committee on Student Recruitment (GCSR)*, en partenariat avec le Centre de demande d'admission aux universités de l'Ontario (« le Centre »). Ce Guide de ressources a été conçu à la demande des conseillères et conseillers en orientation de l'Ontario et s'adresse aux conseillères et conseillers en orientation plutôt qu'aux élèves. La meilleure ressource à consulter par les élèves demeure eINFO : [www.infoelectronique.ca](http://www.infoelectronique.ca).

Pour d'exemplaires additionnels du *Guide de ressources : Universités de l'Ontario dialogues régionaux 2016*, veuillez visiter : <http://orientation.ouac.on.ca/resource/regional-dialogues>.

Les universités de l'Ontario vous remercient de votre participation aux Dialogues régionaux 2016 des universités de l'Ontario. Nous osons espérer que ce guide vous servira de guichet unique pour répondre à vos questions les plus fréquemment posées.

Sincères salutations,  
Le GCSR et le Centre

### Admissions and transition information

<b>Fall 2016 Offer Information</b>	<p>Offers of admission are made on a rolling basis. Each time we receive grades from the OUAC, we re-assess to determine eligibility.</p>
<b>Special Consideration Policy</b>	<p>If students have experienced special/extenuating circumstances that should be taken into consideration when we evaluate their application, they should submit a letter regarding these outstanding circumstances to Admissions Services.</p>
<b>Accessibility Services</b>	<p>The Paul Menton Centre for Students with Disabilities (PMC) provides individualized services to students registered at Carleton with documented disabilities. Students should self-identify to the PMC and meet with a coordinator to discuss individual needs for accommodation and support services early each term, prior to the start of their academic program at Carleton.</p>
<b>Alternative Offers of Admission</b>	<p>If Ontario secondary school students are not eligible for their first choice, they will be given an alternative offer of admission in early May. We will endeavour to give the student a choice that is as close as possible to their original program selection.</p>
<b>Grade 11 Marks</b>	<p>Used for preliminary offers sent in December and January for those with high averages. Used again in February as part of the calculation for early offers in combination with available Grade 12 marks.</p>
<b>Supplemental Application</b>	<p>Portfolios required for Architecture, Industrial Design, Information Technology (IMD stream), and Humanities. Audition required for Music. Supplementary Application required for Social Work.</p>
<b>Deferral Policy</b>	<p>Deferrals are granted for most programs. Some limited enrolment programs require a higher average for deferral of offer to be approved. There are no deferrals for programs that require a supplementary application, portfolio or audition.</p>

<b>Ranking on OUAC Application</b>	If a student is interested in a limited enrollment program (such as Journalism), they should rank it ahead of a more general program (such as Bachelor of Arts). The order in which you rank your program choices is important if you are applying for more than one program at Carleton. Your highest ranked program at Carleton will be considered first—but all program choices will be assessed. If you qualify for your first choice, you will receive an offer of admission for that program. With that offer you will also receive information on the status of your other program choices. If you are eligible for another choice, you can be given an offer of admission if there is space available in that program. If a program becomes full, you will not receive an offer of admission even if you were previously eligible. Therefore we encourage you to rank your choices carefully.
<b>Tuition Deposit</b>	Tuition payments are due August 25 (fall term) and November 25 (winter term). No deposit (except for residence) is required before then.
<b>Course Selection Process, First-Year</b>	Registration begins the first week of June. Registration information is sent in the beginning of May.

<b>Program Changes:</b>	Several program changes and additional minors are currently making their way through the governance process, including a new Studio Art minor and the removal of the Background Information Form for Hospitality and Food Administration and Tourism Management (all pending Senate approval). For fall 2016, MHF4U is required; MCV4U is recommended.

## ADMISSION AND TRANSITION INFORMATION

<b>Fall 2016 Offer Information:</b>	Guelph's offers of admission will be made prior to May 27, 2016, and students will have until June 1, 2016, to respond through the OUAC. Information regarding the conditions will be reflected in the offer of admission.
<b>Special Consideration Policy:</b>	Admission Services will review submissions of the Student Profile Form for Students with Disabilities (SPF-D), with staff from Student Accessibility Services (SAS), in May. As with Student Profile Form (SPF) submissions, the SPF-D will be reviewed for applicants with an admission average that falls within a discretionary range of the final cut-off for each program/major (up to 5%) if they have not otherwise received an offer by that point. More information regarding this process can be found on the SAS website at: <a href="http://www.uoguelph.ca/csd">www.uoguelph.ca/csd</a> .
<b>Accessibility Services:</b>	Our Student Accessibility Services (SAS) office provides services for students with disabilities including learning disabilities, ADD/ADHD, hearing, vision, physical/mobility, chronic medical, acquired brain injury, mental health, autism spectrum disorders, and temporary disabilities. Students are encouraged to contact SAS prior to starting classes. All information is available on our website, <a href="http://www.uoguelph.ca/csd">www.uoguelph.ca/csd</a> , and advisors are available to meet with new students anytime.
<b>Alternative Offers of Admission:</b>	Students can expect to receive only one offer of admission from Guelph. Their highest choice will be considered first. Only in the event that a student is not admissible to their highest choice at Guelph will the next choice be considered. Students are therefore strongly advised to place their preferred program as their highest choice of Guelph programs. Students should have made these changes by April 15, 2016.  Applicants not admitted to a co-op program based on admission average are automatically considered for the regular program. Applicants not admitted to BA - Criminal Justice & Public Policy are automatically considered for admission to BA - General Arts. Applicants not admitted to BSc - Bio-Medical Science or Human Kinetics are automatically considered for admission to BSc - Biological Science.
<b>Grade 11 Marks:</b>	Final Grade 11 U/M marks are used in admission average calculation for our early offers of admission, where Grade 12 marks are not available or are incomplete.
<b>Supplemental Application:</b>	Guelph has several programs that require supplemental application forms to be completed. Visit: <a href="http://admission.uoguelph.ca/supppforms">http://admission.uoguelph.ca/supppforms</a> . Students may also complete a Student Profile Form (SPF) in support of their application, due May 1, 2016. Visit: <a href="http://admission.uoguelph.ca/spf">http://admission.uoguelph.ca/spf</a> .
<b>Deferral Policy:</b>	Students are able to defer offers of admission at the University of Guelph for one year, as long as another postsecondary institution is not attended during that time. An application is required by August 5, 2016, and can be obtained by emailing <a href="mailto:admission@registrar.uoguelph.ca">admission@registrar.uoguelph.ca</a> . Students will incur a \$80 fee.
<b>IB Policy:</b>	Admission and scholarships will be determined using the conversions submitted to the OUAC by the applicant's secondary school. Transfer credit may be given for higher level courses with grades of 5 or better, to a maximum of 2.0 credits; credit will be assessed and students notified once final IB transcripts are received.
<b>AP Policy:</b>	Applicants who have completed AP examinations with a minimum grade of 4 will be eligible to receive university credit, to a maximum of 2.0 credits. Transfer credit is dependent on the program to which a student is admitted and will be assigned once an official College Board AP exam report is received.
<b>Policy on Repeated Courses:</b>	For the fall 2016 admission cycle, Guelph is using the highest U/M grade reported for any repeated course, provided the course has been taken at a Ministry-inspected and approved school.

<b>Policy on Summer School, Night School, Virtual Learning, e-Learning, Private School, and Correspondence Courses:</b>	The University of Guelph considers U/M courses taken via the aforementioned options to be equivalent to U/M courses offered by regular day school, provided the courses have been taken at a Ministry-inspected and approved school.
<b>Ranking on OUAC Application:</b>	The order of choice on the OUAC application makes no difference for admission to Guelph unless a student is applying to more than one program at Guelph. In this case, Guelph considers the highest choice program first.
<b>Tuition Deposit:</b>	A non-refundable registration deposit of \$200 will be required by August 5, 2016, for all students starting at Guelph in fall 2016, subject to change.
<b>Course Selection Process, First-Year:</b>	Students will be sent information on selecting their courses online from the Office of Enrolment Services. This will occur after they have accepted their offer of admission, beginning in the middle of May. Course and program counselling sessions will be available virtually and on campus.
<b>Support Available for the Transition to University:</b>	The Centre for New Students provides incoming students with many opportunities to connect with the Guelph community and receive support before arriving on campus in September, as well as upon arrival for Orientation Week and throughout their first year: <a href="http://studentlife.uoguelph.ca/cns">http://studentlife.uoguelph.ca/cns</a> .  For information regarding our Student Accessibility Services, including testing, required documentation, and available programs and services, please visit: <a href="http://www.uoguelph.ca/csd">www.uoguelph.ca/csd</a> .
<b>Dual Credit/SHSM Programs:</b>	The University of Guelph does not currently recognize dual credits or the SHSM programs in the admission process; however, to students who completed the Specialist High Skills Major, \$1,000 scholarships will be awarded to the three students with the highest admission average entering first year of any OAC program; <a href="http://www.uoguelph.ca/oac/future-students/shsm-scholarships">www.uoguelph.ca/oac/future-students/shsm-scholarships</a> .
<b>English Proficiency Requirements:</b>	Applicants will be required to present evidence of English proficiency if their primary or first language is not English and they have had less than four years of full-time secondary or post-secondary study demonstrating satisfactory academic progress in an English-language school system. Acceptable English proficiency test information can be found at: <a href="http://admission.uoguelph.ca/EnglProf">http://admission.uoguelph.ca/EnglProf</a> .
<b>Transfer Credit Policy:</b>	The University of Guelph is committed to recognizing previously completed postsecondary studies (i.e., college and university). Given the myriad of opportunities available, students are encouraged to reference <a href="http://www.ontransfer.ca">www.ontransfer.ca</a> .

INSTITUTIONAL INFORMATION	
Student Population:	23,500 full-time undergraduates
Program Changes:	All applicants to the Nursing Program at McMaster University will be required to complete a mandatory online 90-minute computer-based assessment called CASPerTM, as a component of the selection process by visiting <a href="http://takecasper.com">http://takecasper.com</a> Midwifery no longer requires the completion of a supplementary application.

ADMISSIONS AND TRANSITION INFORMATION	
Fall 2016 Offer Information:	Offers of admission will be made to qualified applicants based on their top six 4U/M courses, including all required courses. Averages are calculated to two decimal points and are not rounded up. All applicants will be informed of a decision no later than May 27, 2016
Special Consideration Policy:	Students with extenuating circumstances may forward documentation to the Admissions Office. Extenuating circumstances may be evaluated on a case-by-case basis.
Accessibility Services:	Our Student Accessibility Services (SAS) ( <a href="http://sas.mcmaster.ca">http://sas.mcmaster.ca</a> ) office provides services for students with disabilities including learning disabilities, acquired brain injury, mental health disorders, ADHD, chronic illness and sensory or mobility disabilities. Applicants are encouraged to contact SAS prior to starting classes at: <a href="mailto:sas@mcmaster.ca">sas@mcmaster.ca</a> .
Alternative Offers of Admission:	McMaster does not make automatic alternative offers of admission for any program. We encourage applicants to apply to up to three programs as we will consider each program choice simultaneously and will communicate an admission decision for each program selected on the OUAC application.
Grade 11 Marks:	McMaster will only be making offers of admission using Grade 12 marks.
Supplemental Application:	Four direct-entry programs at McMaster require the submission of a mandatory supplementary application for admission consideration: Arts & Science Program; Bachelor of Health Sciences (Honours) Program; Integrated Science Program; and Nursing Program
Deferral Policy:	Students may submit a written request to have their offer deferred for a period of one year. Requests are reviewed on a case-by-case basis by the specific faculty. Normally, decisions on deferrals are not made until late August, upon receipt of final grades. Should a deferral be granted, the student may not attend any educational institution (including secondary school) for the deferral period, and must re-apply via the OUAC the following year.
IB Policy:	Students may present a full IB diploma or a combination of IB courses (certificate) and 4U/Ms (or equivalent). For the purposes of both admission and residence, applicants who present both percentage grade equivalents and IB predicted scores will be evaluated solely on their percentage grades, unless they make a written request to have their IB predicted scores assessed (deadline: May 1, 2016). Students may request to be evaluated for advanced credit of up to 18 units for completed Higher level courses with a minimum final score of 5, at the discretion of the Faculty.
AP Policy:	Applicants who have completed AP courses will be considered for admission to a Level I program. Applicants who have completed the AP exams in acceptable courses with a minimum grade of 4 may be recommended for up to 18 units of advanced credit upon request. An official copy of the final AP Exam Results Report is required as part of the evaluation process.

Policy on Repeated Courses:	Normally, for students who have repeated up to two courses, the highest mark reported will be used in the calculation of the admission average. Students who have repeated more than two courses or individual courses more than twice may be asked by the Admissions Office to provide a letter detailing any extenuating circumstances that may have led to the need to repeat multiple courses. However, it should be noted that all programs have enrollment limits and we reserve the right to give priority to students who meet all course and grade requirements on their first attempt. Courses completed after June 30 will not be included in the admission average calculation.
Policy on Summer School, Night School, Virtual Learning, e-Learning, Private School, and Correspondence Courses:	Courses taken at Ministry-inspected and approved institutions are treated as equal for the purposes of calculating an admission average. Similarly, courses taken during summer school, night school or via e-learning and correspondence are accepted as reported with no penalty to the student. Summer school courses taken in 2016 may not be used to maintain an offer of admission for September 2016 entry, as the course work is completed after the June 30, 2016, deadline to meet conditions.
Ranking on OUAC Application:	No effect on admission.
Tuition Deposit:	Not required.
Course Selection Process, First-Year:	Online enrollment for Level I courses typically opens in late June/early July. Academic advising is available.
Support Available for the Transition to University:	The Student Success Centre is committed to providing quality services that guide students toward the achievement of their academic and development goals. Students are supported from the time they accept our offer to attend and throughout their university careers as they make choices, deal with issues and improve skills that will prepare them for future success upon graduation.
Dual Credits/SHSM Programs:	McMaster does not recognize dual credits or SHSM programs for advanced standing in any of its programs.
English-Proficiency Requirements:	At the University's discretion, students may be exempt from submitting an English language test if they have a) resided in an English-speaking country for at least four years immediately prior to September 2016 OR b) attended an English-medium educational institution in a full-time academic program for at least three years immediately prior to September 2016.

<b>New Programs:</b>	Queen's University is launching new collaborative and pathway programs with Ontario Colleges:  <p><b>Biotechnology Specialization</b> (in collaboration with St. Lawrence College). Students may transfer credits between the two institutions, resulting in the accelerated completion of both a four-year BScH in Biotechnology from Queen's and a three-year Advanced Diploma in Biotechnology from St. Lawrence in just five years. Students can start the degree/diploma at either institution. The BScH Biotechnology Specialization will also be available as a stand-alone four-year degree program for Queen's students.</p> <p><b>Music and Digital Media</b> (in collaboration with St. Lawrence College). This new collaborative program enables students to combine their passion for music and digital technology, and their need for theory and performance with practical skill and experience. Through this innovative partnership students will graduate with a BMus Degree from Queen's and an MDM Diploma from St Lawrence College in five years.</p> <p><b>Bachelor of Technology in Mining Engineering.</b> Graduates of a Civil/Mechanical/Electrical Engineering Technology or Mining Engineering Technician program at any Ontario college who have completed their diploma with a minimum 75% average are eligible to enroll. Upon successful completion of the bridging program, students enter the final two years of the four-year BTech degree program. Each year includes a two-week field placement in Kingston and Timmins.</p>
<b>Program Changes:</b>	Admission to the <b>Bachelor of Physical and Health Education program</b> is being suspended for the 2017 admission cycle to allow for a thorough program review. Students entering the BPHE program this September are not affected by this decision.
Admission Information	
<b>Fall 2016 Offer Information:</b>	Complete applications are currently being considered. All students will be updated on the status of their application(s) by May 20, 2016. <b>Please remind all students to add Queen's (@queensu.ca) to their safe senders list as soon as they have applied.</b> Acknowledgment of application(s), as well as offer(s) of admission, will only be sent via email. Email communication allows Queen's to notify students of admission decisions much faster, and also reduces the University's environmental impact.
<b>Special Consideration Policy:</b>	If there are factors that clearly demonstrate significant extenuating circumstances, beyond a student's control, which have affected academic performance during the past two years, the student should submit documentation to the Undergraduate Recruitment and Admission Office as soon as possible. Aboriginal applicants may choose to request consideration under the Aboriginal Admission Policy, an alternative pathway for admission to direct-entry undergraduate programs. Requests must be received by April 30.
<b>Accessibility Services:</b>	Students who received accommodation in high school for reasons of a documented disability should contact Queen's Student Accessibility Services to speak with an advisor about their needs. <b>Web:</b> www.queensu.ca/studentwellness/accessibility-services <b>Phone:</b> 613-533-6467 <b>Email:</b> accessibility.services@queensu.ca
<b>Alternative Offers of Admission:</b>	Queen's does not make alternative offers of admission. Applicants will be considered only for the program(s) to which they have applied (or amended) via the OUAC.
<b>Grade 11 marks:</b>	Queen's will consider Grade 11 marks when Grade 12 marks are not available.
<b>Supplemental Application:</b>	Admission to Queen's is very competitive. A Personal Statement of Experience (PSE) and a student's academic record are used to help make admission decisions. For all programs, except Commerce, completion of the PSE is optional, but strongly recommended. While we recommend that all applicants submit a PSE, applicants who have not submitted a PSE (with the exception of Commerce) will be considered for admission to Queen's on grades alone. The recommended last date to submit the PSE is February 15.  For admission to Commerce, the PSE and a Supplementary Essay are compulsory and must both be submitted by February 15.
<b>Deferral Policy:</b>	Applicants with extenuating circumstances who have accepted an offer of admission may request an admission deferral for a period of one year. The Admission Committee will consider deferral requests on the basis of final grades and the reason provided by the student. Written requests must be received by August 31, 2016.
<b>IB Policy:</b>	Applicants completing the full IB Diploma will be assessed on their Ontario grades or their IB scores. For all IB candidates, transfer credit may be given for HL courses completed with a score of 5 or higher (6 or higher for select Engineering courses) to a maximum of 18.0 units. Final IB results are due by August 1.

<b>AP Policy:</b>	Queen's may grant transfer credit for AP exams completed with a score of 4 or higher (5 for select Engineering courses) to a maximum of 18.0 units. Final AP results are due by August 1.
<b>Repeated Courses:</b>	If a student repeats a course, Queen's will use the grade from the most recent attempt when calculating the admission average.
<b>Policy on Courses Taken Outside of Day School:</b>	Queen's will accept all courses (summer school, night school, private school, virtual learning, e-Learning, correspondence) offered towards the OSSD from inspected and accredited schools as determined by the Ontario Ministry of Education.
<b>OUAC Ranking:</b>	Queen's does not consider OUAC ranking when making offers of admission. Students will be considered for all programs to which they have applied.
<b>Tuition Deposit:</b>	Tuition for fall term is due September 1, and fall term residence fees are due September 30. Winter term tuition is due January 10, and winter term residence fees are due January 31. Students with demonstrated financial need may submit an Alternative Payment Arrangement Form to defer partial fee payment. Students eligible for OSAP will automatically have their tuition partially deferred.
<b>Course Selection:</b>	Students will be contacted during the summer months to facilitate course selection. All students will be invited to campus to attend Summer Orientation to Academics and Resources (SOAR). For further details, please see: <a href="http://www.queensu.ca/studentexperience/summer-orientation-soar">www.queensu.ca/studentexperience/summer-orientation-soar</a> .
<b>Support for Transition to University:</b>	Queen's offers a range of services and supports to students during their transition to university life. These include, but are not limited to: In-Residence Programming, Queen's Learning Commons, Student Wellness Services, Peer Tutoring, Free Engineering Tutorials, Orientation Week, University Chaplain, Summer Orientation to Academics and Resources (SOAR), Adaptive Technology Centre, Queen's Writing Centre, IT Support Desk, Food Services, the Four Directions Aboriginal Student Centre, the Queen's University International Centre, and Q-Success.
<b>Dual/SHSM Programs:</b>	No special consideration is given to dual or SHSM programs during the admission process, but students may choose to reflect upon these experiences in their PSE and/or SE.
<b>English-Proficiency Requirements:</b>	Applicants who have attended a school where English is the primary language of instruction for three consecutive years immediately prior to their attendance at Queen's are generally not required to submit a test of English proficiency. Students required to submit standardized English-language test scores may submit TOEFL (88 overall, 24 writing, 22 speaking, 22 reading, 20 listening), MELAB (90), IELTS (6.5 on academic module), CAEL (overall 70 with no band below 60), or PTE (60 overall). Alternatively, students who earn a final grade of "A-" or higher in the 12-week English for Academic Purposes program offered by Queen's School of English will be awarded an English-proficiency exam waiver. ( <i>Note: Queen's reserves the right to request standardized English-proficiency test results.</i> )
<b>Transfer Credit Policy:</b>	Transfer credit assessment varies depending on the courses or curriculum that the student has completed, marks achieved, the program the student is entering, and the student's year of entry. For further details, please see: <a href="http://www.queensu.ca/admission/apply-high-school/transfer-credits">www.queensu.ca/admission/apply-high-school/transfer-credits</a> .
<b>Scholarship and Financial Aid Information</b>

Students with averages of 90.0-94.9% will receive \$2,000 in first year. Students with averages of 95.0% or greater will receive \$8,000 (\$4,000 x two years). Students will not receive more than one merit based award.
<b>Additional Scholarships:</b>	Queen's Major Admission Awards require a separate application due <b>December 1</b> . They are based on superior academic ability, creative and original thinking, involvement in school or community activities and proven leadership. Financial need is also taken into consideration for some awards. Major Admission Awards range in value between \$36,000 and \$78,000 over four years. Students must be citizens or permanent residents of Canada.
<b>Admission Bursary:</b>	The Queen's Admission Bursary application is currently available online for September 2016 applicants. We encourage applicants to submit their bursary application by February 15 so we can notify them of available funding at the time their offer is made. Bursaries are based solely on financial need. Students must be citizens or permanent residents of Canada. Note: All registered students, including international students, may apply for a Queen's General Bursary in the fall of each academic year.
