**All summer school courses, including Co-op, will be offered to WRDSB students only who have attended a WRDSB school in the 2025-2026 school year.*

IMPORTANT INFORMATION

- Regular attendance is critical for success at summer school. **Vacation or work should be scheduled outside of summer school hours.** This includes the **5 mandatory orientation/pre-placement Saturday dates** listed above.
- Students are not responsible for finding their own Co-op placements, but active participation in the placement process, time management, initiative and independence will ensure success.
- Students are responsible for their own transportation to and from Pre-Placement Classes and their Co-op Placement.
- Caregivers/Families/Parents should be aware that a positive Co-op Employer relationship and placement experience depends on strong communication and a commitment by the student throughout the program.
