COURTLAND SENIOR SCHOOL

SCHOOL SONG

We're the Courtland Swingers,

Best school of all

We'll all support her

And never let her fall,

And if we stick together

We'll make history

As we go marching on

To victory.

Ra! Ra! Ra!

THE PRINCIPAL'S MESSAGE

Very often students will ask questions such as, "Why do we have to learn history, geography or mathematics?" Or, "How can music or science help to prepare me for my future world of work?" These are questions sincerely asked and demand a serious answer. What can education really do for the student?

All too often it is taken for granted that the main function of education is to prepare students for jobs after leaving school. True, the education one receives is often related directly to his vocation. However, this is only part of the story. A doctor, for example, does not study medicine until he has completed some years of general college education. Yet, we wouldn't want people to enter the profession with only a Grade 8 education. Learning is not simply job training.

From a broader perspective, education is a preparation for living, and life is more than working. Learning broadens experience and extends our horizons adding to our enjoyment, personal satisfaction and personal development. Through our academic pursuits we learn to mingle, work, play and get along with others. Most of our life is spent interacting with people. Learning provides an environment for personal growth in the way we tackle and solve problems. There are a great number of man's achievements, past and present, which are worth knowing about from a personal point of view.

It has been said that what one learns is not nearly as important as how one learns. This would suggest that the task of learning and how we do it will dictate our personal development. Come to think of it, how many of us remember the name of Canada's sixth Prime Minister?

To the students leaving Courtland this year for secondary school, we wish you success and continued enjoyment in the years ahead.

We, the Yearbook Staff, hope you will thoroughly enjoy the Yearbook.

Many hours have been put into the making of it. I hope you enjoy it as much as we enjoyed putting it together. Courtland is a terrific school, and I know it's going to be sad when the Grade Eights leave in June.

I would like to give thanks to Mr. Kirkham for the help he gave us in organizing our staff. Special thanks to Mr. Bray and his Photography Club. We would also like to thank Mrs. Wettlaufer for her typing.

Well, I hope you will look back to our Yearbook for many years and will be fond of it.

We are the spirit of 77.
We are reaching out,
For the new ways in the future.
Our class tries their best.
That's an effective way to think
Of getting ahead in life.

77 always tries to win with pride,
But we have lost with dignity.
Enjoyment comes from working together,
And leads to successful years of work.
Our minds are open to education.
So, when the knock comes on the
Door of Opportunity,
We will be ready to open it first.
