COURTLAND SENIOR PUBLIC SCHOOL
DEDICATED TO A. B. FORLER

Principal's Message

The senior school represents two very important years in the educational and personal lives of its students. As students who are not far from the adult years, this is a time when serious thought needs to be given to the future. Secondary school looms just around the corner, and so for the graduating Grade 8's, this is a year of choices which will deeply affect later adult life.

To the graduating students, may your future be rich and rewarding. Your own hopes, dreams and ambitions will be realized in the same measure as you apply your enthusiasm, talents and industry. You are the one who shapes your future.

May I extend a word of appreciation to the Students' Council and to all students who have worked to make Courtland a special school. Also, I wish to extend congratulations and thanks to the Yearbook Staff for the many hours needed to make this Yearbook such a successful venture.

To all students and teachers, I would say that mine has been a richer life for having had the opportunity to work and to share experiences with you.

EDITOR'S MESSAGE

1974 has certainly been a great year for the students of Courtland Senior School. It is my wish that next year's Grade 7's and 8's make 1975 at least as successful. By all means, keep up a good school spirit. Courtland will be what you make it.

I would also like to express my gratitude to the Yearbook Staff and the advisors. Many long hard hours of work were devoted to this yearbook.

A very special thanks goes to Mrs. Wettlaufer for the many long hours she spent typing our Yearbook.

The Yearbook Staff would like to wish Mr. Forler the best of luck at his new school.

Mr. Hart is good, but small,
But it's okay, not everyone is tall.

Sometimes the teachers think we're a pain,
But it's not their fault because we've driven
them insane.

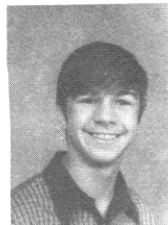

The boys didn't win in basketball,
But, as they say, you can't win them all.

Field hockey, it was not our game,
But we tried hard all the same.

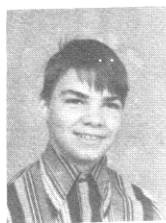

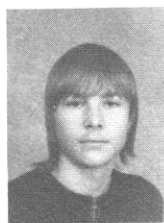

A class of tolerance,
A class of spirit,
Form 81
Deserves a merit.

If you hear a "yarp", "narp" or yell,
Simply look in your upper corner cell.

This is where we're sure to be,
For our name is eighty-three.

But, however, we must say,
That in our own peculiar way,

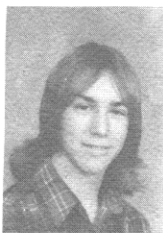

Although we fail the odd test,
We feel that we're the very best.

Most persons in Form 84 were in Form 75 last year. And so, "sticking together," they worked hard in sports and school work, coming out with fine results. Mr. David was their home room teacher.

Talent in many areas, in Form 84, was not uncommon. Practical jokes on their core, and other, teachers were played with zest. Most class members were involved in extra curricular activities and sports teams which contributed much to the school.

We won the sports award fair and square,
And everybody did their share.

Mr. Koegler did his best,
In the east and in the west.

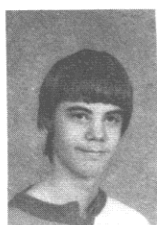

President Cathy in our class,
Makes our day quickly pass.

Our girls and boys worked really hard,
To achieve a good report card.

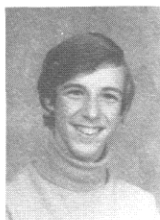

So as we close this little thing,
It will end with a ping.

PING!

The greatest form is 86
All year 'round we have a
lot of kicks.

We drive the teachers up
the walls,
They sometimes go screaming
down the halls.

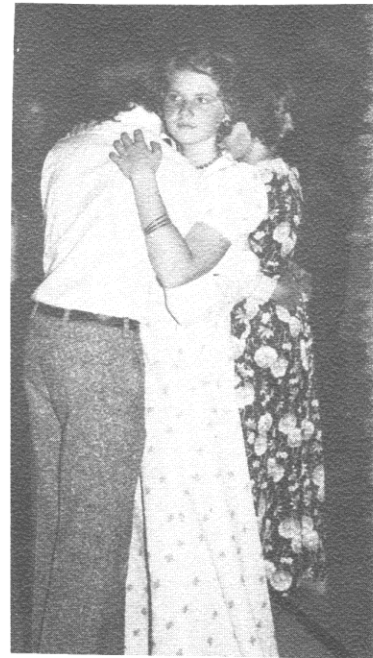

86's humour is really rare
But don't tell the core teacher, she'll pull out your hair.

Mr. Smith is really far out,
His talking and singing ends up in a shout.

The year passed by quickly, passed by in a blur,
We doubt if there'll ever be a class as good as we were.

 We had a carnival in '74,

 We behaved ourselves like every class should.

When it comes to trying, Form 75 does it best. When we send our team out there is no stopping us. We try for most everything - like the time we had a bake sale because we wanted to earn money for a science centre trip. There was also the time we went snowshoeing. We had a great deal of fun walking in them. Form 75 couldn't have had a bad year. We tried and made it click.

FABULOUS FORM SEVENTY-SEVEN

In sports our form played basketball,
 Later in winter a carnival.
 We travelled over the Bruce Trail,
 We came to school through sun or hail.
 Later on we went to Wrigley's Corner,
 We hope to return when the weather gets warmer.
 Mr. Gatto doesn't always know what we're doing,
 But he joined us when we went snowshoeing.

Literary

THE TWO OF US

Hand in hand with the snow at their feet,
They walk, through the rows of endless trees.
In the distance they hear the laughter of children.
Then the walking stops. . . he turns
and faces her cold, trembling body.
Their eyes are locked.
Feelings of emptiness, fear and anger
cloud over her,
As in the distance she still sees him,
walking silently away.
No goodbyes, no last kisses, only
walking hand in hand. . . .

- Monica Steger, Form 82

LIFE

Life is a field,
A field of beauty and love,
It's an endless field of colour.
Life is lying in a field of love
And is an endless universe.
When you think of it
There is no end to the universe,
For how could there be.
Life is a field that is endless and
colourful,
It's full of beauty and full of rest,
There is a field full of knowledge to
be learned that never will be
learned.
Life is going through colours of time
But most of all it's a field of
beauty and love.

- Bill Hartwick, Form 71

THE SUNSET

The sunset gently rocked the forest
to sleep,
The trees and lake whispered in the
wind.
The creek softly spoke at the foam,
The people felt as intruders, so they
went home.

- Paul Gross, Form 73

WARS

Wars, wars, who needs wars?
Why do we have them anyway?
People die and people get hurt,
And all they get is a small tract of
land,
Or sometimes they don't gain anything.
Sure people have arguments, lots of
them,
But can't we settle them peacefully?
With all of man's technical knowledge,
Rocketships to Mars and beyond,
Man can survive in space for a month
or more,
We have automatic dishwashers,
Automatic driers, even electrical cars.
But what good is man's technical know-
. how at all,
If he can't even settle his own differ-
ences peacefully?
I think that if every man did his best
To live in harmony with his neighbour,
We wouldn't have as many wars.
After reading this, I hope you'll
agree that -
We don't need wars, we shouldn't have
them at all.
Kids of Canada listen!
This is one thing you can teach your
parents.

- David Barr, Form 74

CITY AT NIGHT

The city whispered a peaceful goodnight
And the signs blinked out their shin-
ing light.
The cars tip-toed across the road
All whispered but the croaking toad.
The air breathed a sleepy tune
And everything smiled, but
The man in the moon.

- Toni Heller, Form 73

THE FIGHT FOR FREEDOM

The cold wintry night pierced me as my
branches gave cold shivers,
It is winter and there are no leaves on
me, no nothing to stop the wind from
rushing upon my face,
And as I stood there, the sap which ran
from my trunk froze.
Everything halted, my roots not creep-
ing any farther through the sweet
earth, nor my life's blood running
through me.
Then suddenly out of nowhere a light
came,
A bright light,
And as it shown against my face it
brought out another life,
I could feel it, the leaves opening up
and with all their might pushing up
against the sky.
The warmth within me won over,
And no more did my sap freeze,
Nor did my branches shiver.
Again my roots clung to the ground and
slithered through the earth to find
nourishment.
No more, as before was the cold night
piercing me,
And no more would my branches shiver.
For I had won the fight for freedom.

- George Kroll, Form 86

STREAKING

Racing through the night
Garbless, embarrassed and shivering
Once is undoubtedly enough!

- Anita Kunzler, Form 83

A CITY AT NIGHT

A city at night, is a terrible fright.
With its eyes all wincing at you,
It tries to take money
From you and your honey.
Your head will pound from the screaming
sound,
The earth will shake and your eyes will
ache.
For the city at night is a monster in
flight.
The city won't end, 'till the sun your
friend
Slowly begins to rise, and slowly, very
slowly the city eventually dies!

- Roger Boettcher, Form 73

A JACK RABBIT LISTENING

There he stands,
Ears up high in the air
Standing like a statue in the blinding
sun
With only waving grass shading him.
His tiny paws tucked against his chest
Not moving except for a quiver now and
then,
Listening, ever listening, catching the
tiniest particle of sound,
Listening, ever listening.

- Harold Knabenschuh, Form 83

SUNSHINE

Sun, shine down on me,
Rain, rain let us be.
Make this day so warm and nice,
Melt all the snow and sleet and ice.
Let your rays make trees start to bud,
Dry up all the water and the mud.
Help put smiles on children's faces.
Make bright all the dark and gloomy
places,
Let the flowers begin to sprout.
It will be a beautiful spring, without
a doubt.

- Tim Herman, Form 73

SHIP GRAVE'S MEMORIES

Sailing ships tossed upon high foamy
seas,
Captains commanding their men "stand
at ease!"
Cannon balls flying, cutlasses drawn,
Are now only echoes of what is long
gone.

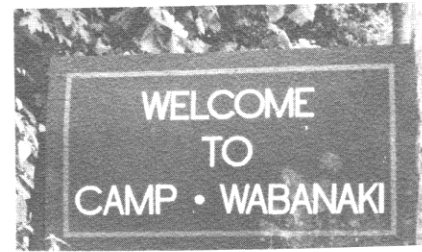

Now in ship grave yards, time-worn
vessels lie,
Mocked only by seagulls, way up in the
sky.
Yardarms in pieces, masts broken off,
Are called to attention by a strayed
albatross.

No one remembers how long they've
been here,
Had they brought cargoes or pirates to
fear,
Or how many men at mastheads had been
whipped,
From many a back, to the deck, blood
had dripped.

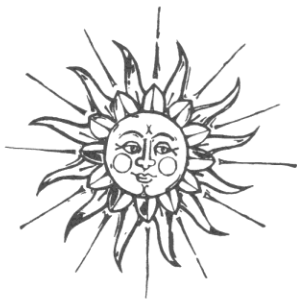

- Cathy Falconer, Form 84
