Evaluation Criteria: You will be evaluated on your ability to take the Dance Major classes at an enhanced level. Specific evaluation will focus primarily on skill level, experience, and preparation level. Your potential to continue to grow as a dancer will also be a factor in the evaluation. You will NOT be assessed on your skills as a videographer, however we recommend that you look at the “tips for recording your audition” section on our website to make sure that you submit the best audio and video possible so that we can get the clearest possible picture of your abilities as a dancer.
