

Did you receive a letter from Region of Waterloo Public Health?

The annual enforcement of the Immunization of School Pupils Act (ISPA) helps to keep our students and schools healthy by stopping the spread of many diseases. Students need to have their vaccines up to date to attend school.

What parents need to do:

- ✓ Ensure your child's vaccinations are up to date.
- ✓ Ensure all vaccine records have been reported to Public Health or that you have a valid exemption on file.
- ✓ See your health care provider for vaccines that your child has missed.

See the checklist on the back for mandatory vaccines and more information.

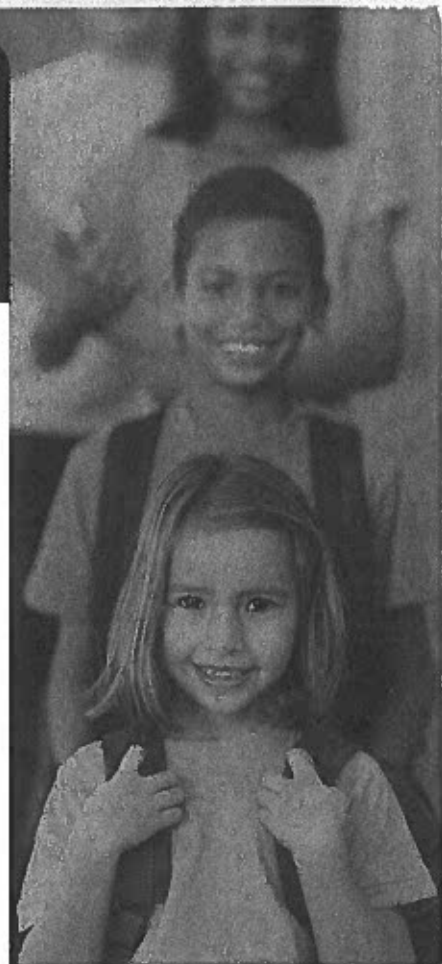

Need Help? Contact Region of Waterloo Public Health to get more information on:

- ✓ How to update your child's record and avoid suspension,
- ✓ What to do if you don't have your child's vaccine record,
- ✓ How to get your child vaccinated by Public Health if you don't have a health care provider, and
- ✓ How to obtain a legal exemption.

Keep our students and schools healthy!

Check your child's vaccination record to make sure they are fully vaccinated against these diseases:

Mandatory as of July 2014

- | | | |
|--------------|-----------|--------------|
| • Tetanus | • Measles | • Meningitis |
| • Diphtheria | • Mumps | • Pertussis |
| • Polio | • Rubella | • Varicella* |

*Only for children born in 2010 and later.

- ✓ Book an appointment with your health care provider if needed or contact Public Health to update your child's record.
- ✓ Report each new vaccination to Public Health; your health care provider does not report these records for you.

- Reminder:**
- ✓ Students aged 4-6 require a booster dose for tetanus, diphtheria, pertussis and polio.
 - ✓ Students require a booster dose for tetanus, diphtheria and pertussis 10 years after their 4-6 year dose.

Protect your child. Protect our community. VACCINATE.
