

INFORMATION AND COMMUNICATION TECHNOLOGY

BTT101

Grade 9 Open Level

What is this course about?

This course is about digital literacy skills that will help you in ALL your high school classes. Topics covered will include word processing, spreadsheets, desktop publishing, website skills and presentation software.

What are the benefits of taking this course?

The biggest benefit to taking this class is this is the class that will give you practical digital skills you will use in ALL your classes DAILY for all of high school. You will learn tips and tricks in Google Workspace and in other platforms that will make your school life easier. With these skills you won't spend your time trying to figure out how to get some software to work and instead spend that time on sharing what you know!

Take this course if you enjoy:

- Working independently
- A practical, hands-on course
- Learning by doing and playing
- Learning about software and hardware
- Working in a group
