

## Specialist High Skills Major Program

The Specialist High Skills Major (SHSM) program offers students the opportunity to explore a specific community, economic and/or industry sector of interest and to acquire skills and experiences within that sector, preparing them for post-secondary destinations in one of four pathways; Apprenticeship, College, University or the Workplace.

As well, students work towards earning certifications in the SHSM sector while completing their Ontario Secondary School Diploma (OSSD) requirements.

GCI offers SHSM programs in **Business, Information and Communications Technology, Sport and Transportation.**

For sector program availability and additional information, please contact your guidance counsellor.
