Final Summative & Exam Information

WRDSB will return to final grades composed of a 70% evaluation gathered throughout the term, and a 30% final assessment. This final assessment (30% of the grade) will be based on a final examination, performance, essay and/or other methods of evaluation

suitable to the course content and administered near the end of the course. Final evaluations offer students engaging opportunities to demonstrate their achievement of the overall expectations in a variety of ways and allow teachers to gather triangulated evidence of student learning.

School staff have been working with the administration, department leadership and learning networks to continue to refine the fair and equitable assessment practices we have learned so much about through the pandemic. Based on this, the use of exams will occur as a portion of the final assessment in some of the grades 11 and 12 courses at GCI. The decision to permit exams only in grade 11 and 12 courses aligns with the WRDSB's commitment to de-streaming and single-streaming core grade 9 and 10 courses. It removes high-stakes exam final evaluations in the junior grades and supports trauma-informed practices while still allowing students in post-secondary destination courses to experience preparation in developing study skills and exam writing skills and strategies.

There is an expectation that students complete all parts of a course's final assessment. Students who do not complete the final assessment do not take advantage of the opportunity to provide recent evidence to verify or confirm their consistent level of performance, at the end of a course. If a student does not provide some significant evidence in the form of a final exam or final evaluation components (e.g. assignment, lab, presentation, performance task, etc.), it may result in the student attaining a reduced grade and/or failure based on the overall evidence as reflected in the term work and final evaluation components.
