

ARE YOU THE ONE?

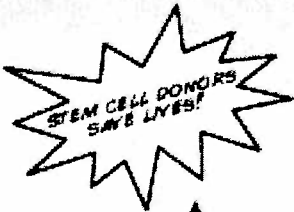

MALE HEROES AGED 17 TO 35 NEEDED!

In Honour of Ethan
MONDAY, DECEMBER 22
Steinmann Mennonite Church
1316 Snyder's Rd. West, Baden
1:30 p.m. - 8 p.m.

June 26, 2014 was Ethan's last day of Grade 6. It was also the day he was diagnosed with ALL (Acute Lymphoblastic Leukemia). After three and a half months of chemotherapy, it was determined by Ethan's doctors that he will require a stem cell transplant to combat his disease. Ethan's family would like to thank the blood donors who have and will help Ethan on his journey. They'd also like to encourage more people to register as potential stem cell donors. With your help, patients like Ethan can return to snowboarding and the many activities a young boy should be enjoying.
