

PLANNER

Our Grade 1-6 planners have been designed to enhance student learning and to facilitate communication between students, parents and teachers. Consistent, responsible use of the Planner will enable students to demonstrate:

- more independent learning
- better study habits and organizational skills
- improved homework completion
- improved academic achievement
- improved attendance

Our school planners will communicate to parents:

- homework assignments
- upcoming events
- specific goals set by their child and/or teacher

The planner will also provide a means for parents to communicate with teachers. Teachers will teach students to use their planner as part of their regular daily activities. Students and parents are expected to read through the first eight information pages and sign the front page to acknowledge understanding of this information. Students are expected to have their planner at school **every day** and to show it to their parents on a nightly basis. If the planner is lost, the replacement fee is \$8.00.
