Please take note of the Bus Loading Signs that have now been posted by the City of Kitchener on Natchez Rd. in front of the school. Between these signs there is **no stopping or parking** at any time of the day as this is a bus loading zone. This will be one year signage only as our new construction project will see the building of a “U” shaped driveway at the front of our school for bus loading and drop-off. **By-law officers will be ticketing cars parked in “No-stopping” zones.** Please take note of these signs and refrain from stopping or parking in this area to avoid a ticket.
