

Meadowlane School Council Plant Sale

Meadowlane School Council has partnered with JustPerennials.com to bring you a spring Plant Sale! Just Perennials has been farming perennials for 25 years and provide quality plants to schools to help them with their fundraising.

The funds raised from this plant sale will help the Meadowlane School Council continue to fund initiatives such as the greening project (additional shade around the play structure, out door classroom, etc.), transportation costs for field trips (helping to keep the cost to families as low as possible), increased technology in the school to aid in our children's learning, and many other beneficial projects.

Perennials are a great way to add some beautiful colour and lower maintenance foliage to your gardens! Just Perennials is able to offer an excellent selection of perennials at a very competitive price to the nurseries of just **\$8.50 each** for one gallon pots (tax included). To view pictures of the plants please visit the Just Perennials facebook page at www.facebook.com/JustPerennials and click on the photo album.

Attached you will find the plant sale order form. If you wish to order plants, please complete this form and submit it along with payment to the school by no later than **Monday, May 9th**. Your flowers will be delivered to the school and available for pick up on **Thursday, May 19th from 3:00 pm to 6:00 pm in the gym.**

If you have any questions or would like to volunteer to help with plant sorting or pick ups, please email us at meadowlaneschoolcouncil@gmail.com and one of us will get back to you in a timely manner.

Thank you for your continued support of Meadowlane Public School and the School Council.

Join the CLASS ROOM CHALLENGE!!

The class who sells the most flowers will be rewarded with a **popcorn party!!** We know class sizes vary so to keep it fair we will divide the total orders from each class by the number of students in that class to get an average raised per student. The class with the highest average will win!!

Have more than one child at the school? No problem! Simply include the names and teachers for each of your children and we will split your order accordingly so they all get credit!

Flower #	Plant Name	Plant Description
1	Allium (purple)	Millenium: mini ornamental onion; striking cut flower.
2	Ajuga: Bugleweed	Maroon ground cover for shady areas. Purple flowers.
