

## Advanced Placement at Southwood

The French, Geography, and Science departments offer enrichment opportunities and coaching for students interested in writing Advanced Placement (AP) exams in May of their Grade 12 year. Successful completion of an AP exam may earn students first year university credits.

### Students interested in AP opportunities must...

- Demonstrate academic excellence in the chosen subject area (has achieved over 85%);
- Have superior academic potential;
- Display an excellent command of spoken and written language;
- Have a well-established work ethic and the willingness to work hard;
- Be enthusiastic, self-directed, and capable of handling the accelerated pace of learning.

Students interested in AP enrichment opportunities must complete the **AP Interest Google Form** provided by St. Andrew's or Cedar Creek during the course selection process.

Once your French, Geography, or Science class has started, please talk to your teacher about your interest in the AP opportunities. For a list of AP policies by Ontario university, [visit this link](#). For more information about the Advanced Placement program, [visit this link](#).
