

# Changemaker Parents @ Vista Hills

Thursday, October 26 • 6:30-7:45 pm

## Why 'Changemaking?'

Our families live in a world that is rapidly changing: it's predicted that the majority of tomorrow's jobs do not exist today. In a world where change is the only constant, children need to practice **changemaking** to thrive. Parents and schools can work together to ensure that their children and loved ones develop the essential changemaking skills: **cognitive empathy, teamwork, leadership, and problem-solving.**

## The Changemaker Parents workshop

is an interactive session that will provide an introduction to changemaking and its connections to Vista Hills' HERO GEM character education focus, and inspire parents and caregivers to developing their own strategies and approaches for **raising young changemakers today.**
