

A great Addition to your evening . . .

Williamsburg Staff would like to invite all of our Williamsburg Families to attend a:

Family Fun Night

Tues. Mar. 3rd
6:30-7:30pm

Classroom Rotations

The goal of our evening is to come together as a community and have some fun together participating in some simple, fun activities.

Together as a family you will participate in 3 rotations throughout the school. There will be prizes and fun to be had by ALL.

"Vocabulary growth is influenced by the amount and frequency of reading that children do"
(Giasson 1990; snow, Burns, & Griffin, 1998)

Math For Families

"Teachers help build children's mathematical thinking at school. Families help build it at home. Research shows that an ongoing partnership with families can help children develop math understanding. Teachers and parents help children view themselves as able learners of math through using real objects and encouraging them to talk about their learning. Children need to know that math isn't something they learn at school. Math is everywhere. Have fun with math, talk about it and help your child be aware of math in everyday life." Sited from: Math For Families Achieve BC

Creating a rich and math environment at school is children's numeracy success.

- positive at home and important to cy success.

NUMERACY WEBSITES "There are many websites for mathematics games. The following websites can help children develop mathematical understanding." Sited from: Math For Families Achieve BC

- www.ed.gov/pubs/parents/LearnPtnrs/math.html
- www.kidsdomain.com/games/math2.html
- www.eduplace.com/math/brain
- www.Mathstories.com
- www.mathbrain.com

Studies show beyond dispute that children's achievements in school improves with increased parent involvement in education (Henderson, 1998).
